

## The Beginning of the Year 1900

(Is it the last year of the old century or the first of the new?)  
Shows that the sales at the

## VACUUM OILS

In the Hawaiian Islands have increased 150 per cent. in 1899, over the sales in 1898.  
In connection with these oils, we now offer

## Oil for the Troublesome Waters.

## EMERALD BOILER OIL.

WHAT IT IS.—Emerald Boiler Oil is a Petroleum extract free from all substances injurious to metal. The special process adopted for its manufacture extracts the volatile properties, while the scale removing properties are retained.

It is of high fire test, and consequently well calculated to withstand the high temperature of steam in the boiler; at the same time, there is no danger of the formation of gas.

For removing and preventing Scale, Emerald Boiler Oil gives the most perfect results of anything for the purpose now on the market.

Its success is attested to by the many who are using it with the best of results.

## WHAT IT SAVES.

What Emerald Boiler Oil saves is of more importance than what it costs.  
It costs a few cents per day; it saves vastly more in fuel alone.

The aim in every steam plant should be to produce steam at the least possible cost per horsepower.

That is the keynote to the whole situation.

Emerald Boiler Oil keeps down the cost of steam-making, by keeping boilers clean, so that they maintain their full efficiency with a normal amount of fuel.

We trust you see the point, and, seeing, will act by giving Emerald Boiler Oil a trial.

Your orders are solicited.

## A SUGGESTION

## Asiatic Freight Should be Tabooed.

## J. S. McCandless Considers Board Should Take Prompt Action-- Probable Cause of Trouble.

Mr. J. S. McCandless considers the Board of Health should take immediate action with regard to the importation of Chinese and Japanese merchandise.

"While undecided as to the actual method through which the plague found its way here," said Mr. McCandless, "the Board has practically cast a suspicion upon Asiatic freight by refusing to permit its export to the other Islands, and I consider they should go a step further, and notify the shipping agents that until further notice they refuse to permit the landing of any merchandise from Asiatic ports."

The Board has shown absolute fearlessness of consequences in adopting the most drastic measures for the stamping out of the pestilence before it has secured a footing in the country, and their praiseworthy action undoubtedly meets with the hearty endorsement of every common-sense business man in the community.

"I believe the Board has adopted the only sure method of dealing with the plague, but I consider they should without delay take steps to prevent any further freight from landing here until they have had time to look closely into the channel through which the disease communicated itself to our people. They have already admitted the probability of its having traveled in the freight, by their absolute refusal to permit its transshipment to other Island ports."

"Between seven and eight hundred tons of this same merchandise is landed here every ten days or so. That it is 'suspected' is evidenced by the care with which it is handled and fumigated, and I believe the only safe method is to suspend all imports until such time as the Board directs."

"That I am not alone in this opinion is clearly demonstrated in the action of leading merchants here, and I believe a stated opinion is all that is necessary to insure immediate action by the Board of Health."

## PAUL NEUMANN TALKS.

The Hawaiian Tramways Company's Position Explained.

Paul Neumann, attorney for the Hawaiian Tramways Company, has the following to say in regard to Thursday's trouble with the Rapid Transit Company:

"The bill granting a franchise to the Rapid Transit Company, reserves the right of the Hawaiian Tramways Company to maintain and operate a single or double track on King street."

"We commenced laying our double track last July and in order to do so, had to move our single track toward the mauka side of the road. When we had almost completed this portion of our work, the Rapid Transit Company 'jumped' the space we had left clear for our double track and laid a few rails to obtain an actual occupation. They then instituted a spurious suit in the name of Southwick against the Tramways Company and obtained a temporary injunction. The result of the suit is too well known to necessitate a further statement. It was very properly called 'an imposition on the Court.'"

"The Rapid Transit Company then sought to obtain another injunction against us, but were refused, and a suit is now pending in Court. They then applied to the Minister of the Interior and the Cabinet to order us to stop. I made no promise to Mr. Thurston or any one else, beyond stating that I would send an answer as early as possible. The answer I sent was that we declined to stop work."

"We desire to have the matter amicably arranged if possible and if the Court decides that we have not the rights we claim, we shall cheerfully bear the loss of our money. We are not prejudicing the rights of the Rapid Transit Company in any way. The matter will be settled by the Courts and not by the intervention of the Minister of the Interior or by an attempt at brute force."

## The Next Legislature.

When spoken to yesterday regarding the reported application of this Government to Washington for an early sitting of the Legislature, President Dole said to an Advertiser reporter: "Yes, I have put in motion an inquiry as to the views of the United States Government on that matter and hope to hear from them before long. Our regular session of the Legislature would meet in next February, if it met upon time. There is need to provide for the appropriation bills for the coming period, as the present appropriations expire on the 31st of next March, and then the plague brings up important matter for legislation. There are other important questions, as well, arising. If the next Legislature meets under the laws of the Republic of Hawaii, an election will of course be necessary; otherwise I presume it will meet under the territorial laws to be framed by Congress. In any event, nothing can be done until we get a reply from Washington to our inquiry."

## NOTICE OF ANNUAL STOCK-HOLDERS' MEETING.

A MEETING OF THE STOCK-HOLDERS of the Star Dairy Company, Limited, will be held at the office of J. Alfred Magoon, in Honolulu, on Wednesday, the 17th day of January, 1900, at 3 o'clock p. m.
